

Position Limits Compliance Simplified.

Monitoring & Reporting Demand a Low-Cost Data Solution

Validating position limits data on a daily basis is an arduous and time-consuming responsibility. The industry's solution is the IFM's position limits data services which help firms simplify global data sourcing and reduce costs.

IFM's Position Limits Databank (PLD) and Equity Options Position Limits Databank (EOPLD) make it easier to obtain data required for pre-trade screening, complex post-trade monitoring, and exchange and regulatory reporting. On a daily basis, IFM manually aggregates, cleanses and validates limits data from exchanges and governments to eliminate inconsistencies or omissions. Together, the PLD and EOPLD serve as industry utilities and are the only consolidated source for global position limits and related regulatory information data in the world.

Ask how the IFM can simplify your surveillance and reporting requirements.

Key Features

- Continuous global coverage on more than 37,000 products including futures, options on futures, cleared swaps, delivery and shipping certificates, stops and warrants, warehouse receipts, equity options, etc.
- Up-to-date data to help firms mitigate risk and compliance lapses.
- Email alerts to stay informed of limit changes, rules and new products
- Data includes accountability levels, reporting levels, position limits, contract aggregations, diminishing contract indicators, mini contract multipliers, and more
- Data available via Web portal and in XML and ASCII file formats via FTP
- IFM Data Center Help Desk to answer limit-related questions

The IFM is a nonprofit 501 (c)(3) foundation and an independent affiliate of the FIA, the leading trade organization for the futures, options and cleared swaps markets worldwide.

Annual subscription price for banks, broker/dealers, FCMs, clearing firms, and market-users for the Position Limits Databank (PLD) is \$20,625, and the supplemental Equity Options Position Limits Databank (EOPLD) is an additional \$6,625.
